PROFESSIONAL SUMMARY

Associate Software Engineer with hands-on experience in MERN Stack development and a solid foundation in AI/ML. Skilled in building responsive full-stack apps with React.js, Node.js, and Express.js, developing RESTful APIs, and integrating ML models into real-world solutions. Eager to contribute clean, scalable code to a growing engineering team.

SKILLS

- **Frontend:** Python, React.js, Redux, JavaScript (ES6+), Bootstrap, HTML, CSS
- **Backend:** Node.js, Express.js, REST APIs
- **Database:** MongoDB, SQL
- **Concepts:** Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), DataBase
- **Tools:** Git, GitHub, VS Code, Postman

PROFESSIONAL EXPERIENCE

Uideax — Frontend Developer Intern

June 2025 – August 2025

[Live Project](#)

- Built responsive and interactive user interfaces using React.js and Tailwind CSS.
- Collaborated using Git and GitHub to develop clean, reusable, and maintainable frontend code.

Code Alpha — Web Developer Intern

June 2024 – August 2024

- Gained practical experience with React.js fundamentals, component-based architecture, and state management through project development.
- Applied React.js and Node.js concepts to build responsive web applications and collaborate using Git and GitHub.

PROJECTS

1. Online IT Exams Preparation Platform

[Live Project](#)

- Built a scalable IT exam preparation platform with exam browsing, practice tests, and study materials, using MERN Stack.
- Implemented secure JWT-based authentication, role-based authorization, an admin dashboard, and payment-integrated access control for premium content and downloadable resources.

2. AI-Powered Weather Health Prediction System

[Live Project](#)

- Built an AI-powered platform to predict weather-based disease risks with real-time weather data integration and interactive health dashboards, using MERN Stack.
- Built an ML pipeline for data preprocessing and disease prediction using Python and Scikit-learn, with JWT-secured APIs for AI-driven health recommendations.

3. Airbnb-Inspired Full-Stack Web Application

- Built a MERN Stack web application with secure authentication using Passport.js and Google OAuth.
- Integrated Cloudinary for image uploads and Mapbox for interactive maps.

EDUCATION

Bachelor of Science in Computer Science

2022 – 2026

University of Engineering & Technology (UET), Lahore — GPA: 3.46/4.00

LEADERSHIP & TEAMWORK

Director, Codator Society, UET Lahore

2024 – 2026

- Assisted in managing society activities and coordinated with team members to ensure smooth event execution.

Event Management, IET Society, UET Lahore

2024 – 2026

- Coordinated with volunteers and organizing committees to plan and execute technical seminars and student events.
